How to Sell High: Avoid these 3 Mistakes When Selling Your Fremont Home

Fremont - When you decide to sell your home, setting your asking price is one of the most important decisions you will ever make. Depending on how a buyer is made aware of your home, price is often the first thing he or she sees, and many homes are discarded by prospective buyers as not being in the appropriate price range before they're even given a chance of showing.

Your asking price is often your home's "first impression", and if you want to realize the most money you can for your home, it's imperative that you make a good first impression.

This is not as easy as it sounds, and pricing strategy should not be taken lightly. Pricing too high can be as costly to a homeseller as pricing too low. Taking a look at what homes in your neighborhood have sold for is only a small part of the process, and on its own is not nearly enough to help you make the best decision. A recent study, which compiles 10 years of industry research, has resulted in a new special report entitled "Homesellers: How to Get the Price You Want (and Need)". This report will help you understand pricing strategy from three different angles. When taken together, this information will help you price your home to not only sell, but sell for the price you want.

To hear a brief recorded message about how to order your FREE copy of this report call toll-free 1-844-311-5109 and enter ID# 5016. You call any time, 24 hours a day, 7 days a week.
